

Appl. No. 10/796,807

Preliminary Amendment dated September 30, 2004

AMENDMENTS TO THE ABSTRACT

Please enter the attached abstract as a separate page following the claims.

ABSTRACT OF THE DISCLOSURE

A device for applying a meltable substance, particularly a hot melt adhesive, to a substrate. The device imparts a rotating or vibrating motion to the substance to generate mechanical friction between the meltable substance and the substrate, causing the substrate to melt and apply to the substrate.
